Profile

Quality engineer with 8+ years automating web and API tests. Designs CI/CD test strategies, leads migrations from manual suites, and works with product teams to shorten delivery cycles.

Education

Example University — Santiago, Chile
MSc in Computer Science — 2018 - 2020

Example University — Valparaíso, Chile
BSc in Computer Engineering — 2012 - 2017

Example Business School — Online
Diploma in Agile Project Management — 2021 - 2021

Experience

Example Fintech — Remote
Software Quality Engineer (SDET) — 2022 -

- Front-end and API test automation for a payments platform. Designed Playwright and pytest suites, integrated them in Jenkins, and tracked quality metrics in TestRail.

Acme Analytics — Santiago, Chile
QA Automation Analyst — 2020 - 2022

- Migrated manual tests to Selenium and Cucumber for reporting systems. API integration testing with Postman and SQL.

Example Academy — Online
Test Automation Instructor (Python) — 2021 - 2023

- Instructional design and teaching for the Python automation course. Hands-on material for teams adopting shift-left testing.

Globex Software — Santiago, Chile
Backend Developer — 2017 - 2020

- Built REST services in Python and Java. Unit testing, code review, and production support.

Certifications

Test Automation with Python · *Example Academy* — 2023
ISTQB Foundation Level · *Example Testing Board* — 2021
DevOps and CI/CD Fundamentals · *Example Online* — 2022

Languages

Spanish · *Native* English · *Advanced (C1)*

Skills

Languages:	Python, Java, SQL, Bash
Test Automation:	Playwright, Selenium, Cypress, pytest, Cucumber
CI/CD and Tooling:	Jenkins, Git, Docker, Jira, TestRail, Postman
Data:	Pandas, SQL, Power BI
